15 Number 208B-0941, Mexican Registration
XA-TUF.

16 Defendants.
17

CIV-04-363-PHX-JWS

STATUS REPORT

**AIRWORTHINESS OF DEFENDANT
NUMBER 1**

18 Pursuant to the Order entered in this action regarding the interlocutory sale of defendant
19 number one, plaintiff files this report.

20 On October 11, 2005, at approximately 2:50 pm Eastern Standard Time the physical custody
21 of the defendant aircraft number one was transferred from Miami Aviation to a nearby Lear Jet
22 Facility where the repairs are to be begun.

23 On October 13, 2005 the undersigned received the following bulletin regarding the initial
24 evaluation of the aircraft:

25
26 With regard to AD2004-03-08, RVSM and TAWS on the referenced aircraft (para H
27 & I in the order), I have been given new information that is good news.
28

1 AD2004-03-08 requires Lear Service Bulletin 31-51-2 / 3 to be complied with. The Lear
2 facility informs me that this aircraft is of high enough serial number that the service
bulletins are not applicable and therefore not a requirement.

3 RVSM: The Lear facility has informed me that the aircraft has all of the required
4 equipment for RVSM, and will only require "Skin Mapping" and several other
minor tasks to certify the aircraft for RVSM. They should have a quote for this work
5 by the end of the week.

6 TAWS: The Lear facility informs me that the aircraft was manufactured with the
equipment required for TAWS, and therefore will not require further work to meet
7 the present FAA requirements.

8 Best Regards,
9 Bob Walling

10 Plaintiff will continue to provide periodic updates regarding the progress of the repair of
11 the aircraft as similar bulletins or reports are received.

12 Respectfully submitted this 13th day of October, 2005.
